DETAILED ACTION

Response to Amendment

1. Claims 1-11 have been circled and hand-marked "Cancell". It is acceptable by the examiner that claims 1-11 is now cancelled; however, for future communication, they should be labeled as --1. (Cancelled)--, --2. (Cancelled)--, and so on and new claims should be labeled as --12. (New)--, --13. (New)--, and etc. Claims 12-20 still exhibit the informalities and indefiniteness as addressed in the previous office action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They are replete with grammatical and idiomatic errors. Claims must begin with a capital letter and end with a period and nowhere else should periods be used. The used of quotation marks are not acceptable in the claim. Each and every structure needs to be positively recited. Indefinite or unclear language should not be in a claim; a few example are indefinite language "the parts" in line 2 of claim 12; "the same device" in line 4 of claim 12; "such as" in line 8 of claim 12; lines 7, 10 and 23 of claim 12 should not end like that, which present grammatical errors. The Applicant need to check claims 13-20 for similar problem. It is recommended that the Applicant

utilize Patent 3,418,054 as an example of how to claims are properly written. For the purpose of this examination, the examiner considers the claims as best understood.

4. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 12-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Reents or Stern et al.

As best understood, Reents or Stern et al. still discloses the claimed device.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent 3,418,054 disclosed the claimed invention except for the pump being electrically operated pump.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
